## OUTBOARDS MAY COME TO ELK LAKE

ELK LAKE, May 1.—The Vancouver Island Outboard Association, who hold an annual program of events at Cordova Bay each year on Labor Day, are considering Elk Lake as a sports ground this year.

Many who enter these contests do not like the idea of taking their racing engines into salt water and are looking for a fresh water sports ground. However, Elk Lake is being developed by the City of Victoria for a recreation centre and it is not known if it is possible to secure it for this purpose, so other fresh water lake spots are being looked into, but the association hope to retain this popular sporting event in Saanich.

## ROOFS BEING RENEWED

Simister's Dry Goods Store, Beacon Avenue, Sidney, has a new shingle roof. Messrs. George Hill and W. J. Wakefield were the contractors.

The Review office has just had a new rubber composition roof put on by Messrs. C. and B. Ward.

Many homes throughout the district are having roofs shingled and repairs made.

Mitchell & Anderson Lumber Co. Ltd., Sidney, draw attention to their advertisement to the almost certain tax to come on building material and advise those contemplating building or repairing to act without delay.

## INN TO REOPEN AT ROYAL OAK

ROYAL OAK, May 1.—It is reported that the Royal Oak Inn will reopen after being closed for several months.

This beautiful thatched roofed inn stands at the junction of the East and West Saanich Roads at Royal Oak and is now one of the beauty spots on the highway.

Many local residents and visitors enjoyed the hospitality of this charming inn during the 1939 season and 1940 will no doubt prove just as popular.

Afternoon teas, dinners, lunches, suppers, etc., will be catered to and there will be dancing every night and a special supper dance on Saturday nights.

## Saanich Grocery And Meat Stores To Close Wednesday Afternoon

ROYAL OAK, May 1.—Starting May 1st, all grocery and meat stores in the Saanich Municipality will be obliged to close up shop on Wednesday afternoon. This law is to be strictly enforced from this date, according to reports.

## LACK OF GAS HANDICAPPING MOTORISTS

The shortage of gas brought about by the dispute between the oil companies and the Provincial Government is causing great inconvenience to many motorists and is interfering with business in many ways.

Among those in business to suffer are the many garages and filling station operators. Garage men say that things are at a standstill. Cars are either kept in private garages or are stalled somewhere. Practically no repair work in the shops is in evidence.

## Endeavour Chapter Meets At Brentwood

Among the other guests of the evening were Mrs. N. R. Johnston, provincial film convener, and Mrs. C. Ellis, jr., Dr. O. M. Jones Chapter.

Throughout the Saanich Peninsula and Gulf Islands there are 137 miles of paved roads, 505 miles unpaved, and 367 miles of trails, according to a survey the Review made a few months ago.

**Gasoline Price-Fixing in B.C.**

**DICTATORSHIP ON THE HOME FRONT**

An Editorial in the Globe & Mail, Toronto

April 29, 1940

**B** RITISH COLUMBIA'S assault on the Oil Companies  
 is another step on the road to State Socialism if not,  
 indeed, on the road to totalitarianism. By a decree of the  
 Coal and Petroleum Control Board of British Columbia,  
 a creature of the Provincial Government, the Oil Com-  
 panies have been ordered to sell gasoline at prices they  
 claim to be less than cost. It is true the legislation the  
 Provincial authorities have invoked has been held consti-  
 tutional by the Supreme Court of Canada, but constitu-  
 tional or not, the principle of price-fixing by the Pro-  
 vincial Governments is rank. It is vicious when prices are  
 fixed at less than the cost of production and distribution.

When first issued, eighteen months ago, the order of  
 the Coal and Petroleum Control Board required the sale  
 of gasoline in British Columbia for less than the then  
 prevailing cost and at prices actually lower than in the  
 California oil fields and elsewhere on the United States  
 Pacific Coast. Subsequently costs to the British Columbia  
 petroleum industry were increased by exchange, by high  
 war water transportation rates and by other war condi-  
 tions. In view of the war-increased costs to the industry,  
 the order to set prices that the Coal and Petroleum Board  
 arrived at are now more onerous and confiscatory than  
 ever.

If the Government of British Columbia can get away  
 with price-fixing in the oil business, and the Government

of Alberta can tell farmers and other producers how much  
 they may charge for their products and regulate the vol-  
 ume of production and the quantity that may be placed  
 on the market, what is to hinder the Government of  
 Ontario from dictating the prices of manufactured ar-  
 ticles? If the disease spreads into Eastern Canada business  
 is going to be in a fine pickle. We doubt that the people  
 of this Dominion are ready and willing to goose-step to  
 the tune of a dictator.

This sort of thing may be all right in Germany and  
 Russia and Italy where ordinary folk cannot call their  
 souls their own, but it is all wrong in a democratic coun-  
 try like Canada where we still cherish British liberty and  
 justice. There are ways of dealing with injustices here  
 without political dictatorship. But prevention of profi-  
 teering in the necessities of life and the munitions of war  
 can be defended in war time and the Federal Government  
 has done a good job in regulating the supply and prices  
 of the necessities of life. But when a Provincial Govern-  
 ment runs amok and attempts to tell farmers and manu-  
 facturers what they may do and what they may not do  
 in the matter of prices and production, it is time to call  
 a halt. Disregard of economic laws will destroy the very  
 foundations of democratic freedom. What is the use of  
 fighting totalitarianism abroad if we are going to permit  
 it to rear up its ugly head in Canada?
